Title: Regarding constructing railway level crossing over Piyali River on Sealdah Canning Line.

SHRIMATI PRATIMA MONDAL (JAYANAGAR): Thank you hon. Deputy Speaker, Sir, for allowing me to speak during 'Zero Hour'.

Under my parliamentary Constituency, Piyali is one of the oldest and busiest Railway Stations situated over Piyali River on Sealdah Canning Line. The major problem of this Railway Station is that the vehicles from one side cannot move to the opposite side due to absence of railway level crossing. In this regard, I wrote thrice to the Railway Minister but I did not get any positive result.

I, on behalf of thousands and thousands of villagers, students of schools and colleges and traders, would like to request once again to the hon. Railway Minister to consider this long pending demand and take a favourable action in this regard.
